Straight Creek

We are Beekeepers

WHAT IS SUSTAINABLE BEEKEEPING?

Bee Minimally Intrusive

- understand the bees
- use few if any drugs or chemicals and use natural ways to deal with pests and illness

Open Pollinated Crops

Open Pollinated Garden

Purchasing “Organic” can be cost
prohibitive

SO ...

We decided to start our own open
pollinated vegetable seeds for the
garden.

Borrowed the idea from our Tobacco Farming Neighbors

Fish Emulsion Fertilizer

(per bottle instructions)

Dirting the trays ...

Seeding the Trays

Marking the seeds

Floating the Trays

Covering the Bed

Setter to plant the starts

Small Scale Float Bed ...

A old window
frame on a
hinge

Open during the
heat of the day
and close at night

A Child's Swimming Pool? ...
be creative

And Enjoy the Fruits of Your Labor!!!

Happy Farming!
Happy
Gardening!
